Bachelor of Science, Computer Science
SUNY Plattsburgh

PROFILE

Organized and detail-oriented engineering leader with 20+ years of experience in all aspects of software development. Adept at hands-on product building, conducting strategic planning, coordinating talent development, and ensuring customer success.

WORK EXPERIENCE

STAFF SOFTWARE DEVELOPER

Planted Solar I 2025 - Present

- Responsible for maintaining a solar power plant design tool
- Focused on making the user interfaces more intuitive and improving software performance: E.g., refactored a service achieving 800% CPU speedup. Reduced build system time from 15 to 2 minutes
- Designed and built an auto layout engine capable of doing Gigawatt scale power plant layout

DEVELOPER LEAD AND ARCHITECT

Sellpoints/Syndigo I 2018 - 2024

Maintained a very large (average 50k requests/second, 2Bn annual page impressions) e-commerce web frontend running worldwide across many retail websites.

- Wrote JavaScript, CSS, HTML, Nodejs at scale
- Supported accessibility and localization, including right-to-left languages
- Mentored junior developers and establishing a culture of success

SELF-EMPLOYED CONTRACTOR

DreamingBits LLC I 2012 - 2018

Worked with several companies as an independent contractor, doing work within the full software development lifecycle. Worked in some trendy and interesting areas, including blockchain and conversational AI.

- Wrote functional specs, and consulted on UX/design
- Wrote full stack code and tests (JavaScript, CSS, HTML, Nodejs)
- Provisioned production environments via several AWS services

WORK EXPERIENCE...

VP OF ENGINEERING
FreeCause I 2010 - 2012

Led a team of 10 in-house and 3 offshore developers responsible for all browser plugins, search platforms, e-commerce, and reporting platforms driving the company's various business lines.

- Served as lead technical architect
- Co-led technical strategy with the other VP of Engineering
- Mentored staff and built a great team
- Wrote a lot of PHP code for reporting and search services
